

Brady Lamson

719-360-1697 | lamsonbrady@gmail.com | [LinkedIn](#) | [Github](#)

TOOLS AND SKILLS

Programming: Python, SparkSQL, SQL, R, Regular Expressions

LLMS & AI: Machine learning (ML), Natural Language Processing (NLP), Large-Language Models (LLMs), Azure Document Intelligence (DIS), Agentic AI

Cloud Services: Databricks, Azure DevOps, Amazon Web Services (AWS), Streamlit

Libraries & Frameworks: PySpark, Pandas, Numpy, Flask, Jupyter, Matplotlib, PowerBI, Polars, Scikit-Learn, PyTorch, NLTK

Infrastructure: Git, Poetry, Docker

EXPERIENCE

Data Scientist I

Aug 2024 – Present

CLA (CliftonLarsonAllen)

Denver, CO

- Developing data validation systems, pricing analyses, and model diagnostics for a tax return pricing model generating over \$500K in revenue
- Leading development of a reusable data validation framework to standardize quality assurance across Data Science R&D projects.
- Building and maintained firmwide analytics dashboards tracking workforce, project, revenue, and employee turnover metrics.
- Designing automated PySpark monitoring pipelines that identified data quality issues for major enterprise data migrations.
- Collaborating with CRM stakeholders to identify deficiencies in data collection processes and recommend improvements supporting future initiatives.

Data Scientist - Internship

Aug 2022 – Dec 2023

FinGoal

Boulder, CO

- Fine tuned a BERT huggingface model to identify and label key parts of raw transaction data.
- Established the team's first AWS-based model deployment workflow, self-teaching SageMaker, Docker, ECR, and S3 to deploy custom models and inference services accessible through managed endpoints.

PROJECTS

Granby Pedestrian Safety Analysis | Live Application | Source Code

Jan 2026 – May 2026

- Providing quantitative safety-impact assessments used in the evaluation of \$1M in proposed infrastructure investments.
- Developing automated Python workflows to estimate pedestrian crash rates and probabilities using Highway Safety Manual models and methodologies.
- Building and deploying an interactive Streamlit application allowing stakeholders to evaluate pedestrian risk across varying traffic volumes, pedestrian counts, roadway configurations, and planning horizons.
- Presenting technical findings and safety-impact estimates to the Granby Board of Trustees to support capital investment decisions.

EDUCATION

Master of Science in Statistics

Denver, CO

University of Colorado Denver - GPA 3.96

Aug 2024 – Dec 2026

Bachelor of Science in Statistical Science — CS Minor

Denver, CO

Metropolitan State University of Denver - GPA 3.86

Jan 2021 – Dec 2023

Associate of Science in Psychology

Denver, CO

Community College of Denver - GPA 4.0

Aug 2018 – Dec 2020
